THE BURN PHILOSOPHY

Our focus is on the development of our players, and not the short-term goal of winning a game or trophy. By understanding the correct areas of focus at each age and stage of a player's development, our coaches can work together to ensure that our players' development and education is being correctly facilitated. Our goal as a club is to improve the quality of play at every level and develop well rounded, technically competent players who learn to play and enjoy the game as a lifetime sport. Winning games and tournaments, which many of our teams do, is simply the end result of our player centered curriculum and training program.
